SECTION IV.
GENERAL CONDITIONS
OF CONTRACT

1. Scope of Contract

This Contract shall include all such items, although not specifically mentioned, that can be reasonably inferred as being required for its completion as if such items were expressly mentioned herein. All the provisions of RA No. 9184 and its 2016 revised IRR, including the Generic Procurement Manual, and associated issuances, constitute the primary source for the terms and conditions of the Contract, and thus, applicable in contract implementation. Herein clauses shall serve as the secondary source for the terms and conditions of the Contract.

This is without prejudice to Sections 74.1 and 74.2 of the 2016 revised IRR of RA No. 9184 allowing the GPPB to amend the IRR, which shall be applied to all procurement activities, the advertisement, posting, or invitation of which were issued after the effectivity of the said amendment.

Additional requirements for the completion of this Contract shall be provided in the **Special Conditions of Contract (SCC)**.

2. Advance Payment and Terms of Payment

2.1. Advance payment of the contract amount is provided under Annex "D" of the revised 2016 IRR of RA No. 9184.

2.2. The Procuring Entity is allowed to determine the terms of payment on the partial or staggered delivery of the Goods procured, provided such partial payment shall correspond to the value of the goods delivered and accepted in accordance with prevailing accounting and auditing rules and regulations. The terms of payment are indicated in the **SCC**.

3. Performance Security

Within ten (10) calendar days from receipt of the Notice of Award by the Bidder from the Procuring Entity but in no case later than the signing of the Contract by both parties, the successful Bidder shall furnish the performance security in any of the forms prescribed in Section 39 of the 2016 revised IRR of RA No. 9184.

4. Inspection and Tests

The Procuring Entity or its representative shall have the right to inspect and/or to test the Goods to confirm their conformity to the Project Specifications at no extra cost to the Procuring Entity in accordance with the Generic Procurement Manual and, if applicable, additional tests specified in the **SCC, Section VII (Technical Specifications)**. The Procuring Entity shall notify the Supplier in writing, in a timely manner, of the identity of any representatives retained for these purposes.

All reasonable facilities and assistance for the inspection and testing of Goods, including access to drawings and production data, shall be provided by the Supplier to the authorized inspectors at no charge to the Procuring Entity.

5. Warranty

5.1. In order to assure that manufacturing defects shall be corrected by the Supplier, a warranty shall be required from the Supplier as provided under Section 62.1 of the 2016 revised IRR of RA No. 9184.

5.2. The Procuring Entity shall promptly notify the Supplier in writing of any claims arising under this warranty. Upon receipt of such notice, the Supplier shall, repair or replace the defective Goods or parts thereof without cost to the Procuring Entity, pursuant to the Generic Procurement Manual.

6. Liability of the Supplier

The Supplier's liability under this Contract shall be as provided by the laws of the Republic of the Philippines.

If the Supplier is a joint venture, all partners to the joint venture shall be jointly and severally liable to the Procuring Entity.

SUPPLY, DELIVERY, CONFIGURATION, AND INTEGRATION OF COMPUTER HARDWARE AND SOFTWARE FOR PAMPANGA REGISTRATION SYSTEM

BACKGROUND

The project aims to enhance the capabilities and efficiency of the existing Pampanga Registration System (Pampanga Social Vulnerability Database / Pampanga Citizens Registration Management System) for by supplying and delivering necessary computer hardware components such as laptops, webcams, signature pads with a stylus, and ID card printers. Configuring and integrating these hardware components will allow better management of registration data and will help streamline the system’s operations. The primary objective of this project is to ensure faster, more secure and efficient processing of data, thus benefiting the committee or working group responsible for the management of Pampanga’s registration data. The project also aims to provide modern tools to improve various registration processes, leading to enhanced services for the community.

PROJECT DESCRIPTION

The Pampanga Registration System is currently in need of an upgrade of computer hardware and Application Programming Interface (API) development for improved functionality and enhanced user experience. The objective of this project is to supply, deliver, configure, and integrate new computer hardware such as laptops, webcams, signature pads with stylus, ID card printers with the existing Pampanga Registration System. In addition to the hardware upgrade, APIs will be developed to provide more functionalities and seamless integration with the system.

The project will involve the following activities:

1. Supply and Delivery of IT equipment and supplies
2. Configuration of equipment to meet the requirement of the registration system and to improve overall performance.
3. Integration of equipment to the existing Pampanga Registration System for seamless usage.
4. Development of Application Programming Interface (APIs) to provide more functionalities to the system and improve workflow, to enhance performance and user experience.
5. Testing of the newly installed equipment and developed APIs to ensure that it functions according to the requirements of the project.

The expected outcome of this project is a registration system that is more efficient, user-friendly, and reliable. With the integration of new equipment and developed APIs, the registration process will be smoother, faster, and more secure. This project will contribute to the overall improvement of the registration system in Pampanga, ensuring that citizens can easily access services and that government records are maintained accurately and efficiently.

OBJECTIVES

The specific goals and objectives of this project are as follows:

1. To supply and deliver computer equipment for Pampanga Registration System.
2. To configure and integrate these hardware components into the existing registration system of Pampanga.
3. To develop APIs to enable better interaction between the new hardware components and the existing registration system.
4. To enhance the capabilities of the registration system and ensure faster, more secure, and more efficient processing of registration data.
5. To streamline the operations of the Pampanga Registration System.
6. To minimize errors and better manage Pampanga's registration data.

GENERAL SCOPE OF WORK

The following Scope of Work shall be accomplished within 20 days from the receipt of Notice to Proceed.

1. The contractor shall supply all equipment and install hardware drivers;
2. The contractor shall develop an Application Programming Interface (APIs) for the integration and procedures for computer hardware devices to the existing software; and generation of customized reports;
3. The contractor shall install SDK and configure API for Signature pads, Camera and ID Card Printer;
4. The contractor shall provide End-Users Training;
5. The contractor shall provide one (1) year warranty for the hardware and software which shall be served on the day after project final acceptance and it shall cover the services, upgrades, and updates of the Software;
6. The contractor shall provide a helpdesk (telephone/e-mail) to provide support during implementation and maintenance to provide necessary operational support to all system users at all times;
7. The contractor shall provide comprehensive documentation of the integration process, as well as procedures to maintain the integration in hardware and software copy.

DETAILED SCOPE OF WORK

Signature Pad Integration

1. Install and configure the signature pad device driver by identifying the appropriate driver software, installing it on the laptop, testing the driver, and configuring the device with the existing software.
2. Integrate the signature pad device with software by developing an interface between the signature pad device and the software and test the integration and ensure compatibility.
3. Test and finalize integration by using different signature scenarios to ensure the signature process is working correctly and verify that the signatures captured are accurate and properly recorded in the software and document the implementation process and all settings configured.
4. Provide technical training to the team responsible for using and managing the devices.

Web Camera Integration

1. Evaluate the existing software and assess what modifications need to be made to integrate the web camera device.
2. Integrate the web camera device with software by developing an interface between the signature pad device and the software.
3. Develop a test environment and test plans in order to ensure the proper function and performance of web camera devices.

4. Provide technical training to the team responsible for using and managing the devices.

ID Card Printer Integration

1. Evaluate the existing software and assess what modifications need to be made to integrate the ID Card Printer.
2. Connect the ID Card Printer to the existing software by establishing a connection between the ID Printer and the existing software to allow printing of customized ID for Pampanga
3. Integrate the approved ID layout for Pampanga Registration System
4. Provide technical training to the team responsible for using and managing the devices.
